

## HARBHAJAN'S EXPERIENCE:

Harbhajan's 35-year, well-rounded journey of self-discovery included intense personal training and healing in yoga and meditation which helped to make him one of the most powerful healers.

He has mastered many ancient, though cutting edge, therapeutic techniques of the mind, body and spirit which enable him to connect with each individual on emotional, physical, and energetic levels.

A natural born clairvoyant, he tailors individual treatments using intuition, spoken and subconscious intelligence and a honed manual sensitivity of the inner structures of the human body acquired from years of training under Jean-Pierre Barral of the Barral Institute, John Upledger of the Upledger Institute, Master Joe (Taiwanese Qi Gong master), Yitian Ni (D.O.M.), B) (Kohona healer), Yogi Bhajan (Kundalini yoga master), Dorothy Espino (Circles Of Life), Guru Dev Sing (Sat Nam Rasayan) and other esteemed health experts.

| Fibromyalgia     | Post-Traumatic Stress | Phobias             | Lymph System        |

## THE PROCESS:

Harbhajan assesses each individual using listening skills, clairvoyance abilities, spiritual awareness and therapeutic knowledge to address and deliver what the individual needs on both conscious and subconscious levels. Harbhajan masterfully utilizes manual therapy and emotional work subtleties to perform the most powerful healing available in the world of alternative medicine.

The inner-connectivity of the mind and body is what causes disease and Harbhajan addresses both using a variety of healing genres. Most situations require treatment using a blend of integrated therapies; it proves to be more efficient and accelerates the healing process.

Harbhajan is a skillful healer who assisted me in the release of emotions and memories that kept me trapped in the past. He is amazing!

– Renée, teacher

Even the Mayo Clinic couldn't help me. I was about to die. After 10 hopeless years and 14 surgeries, my pain left. It seemed effortless, my healing. It was miraculous.

– Christine, journalist

I am recovering from a brain shunt operation, cancer, paralysis, and MS. I came in in my wheelchair; but after 20 minutes with Harbhajan, I was walking with support.

– Diane the 'Miracle Lady'

After 2 sessions, Harbhajan resolved the root cause of severe abdominal pain and also corrected a painful hip displacement.

– Barbara

Serious addictions and terrible neck and back pain fell away after Harbhajan worked on me, and he gave me the necessary tools for physical & spiritual realignment.

– Monica, psychologist

"Harbhajan is a master of emotional work."

– Jean Pierre Barral, Barral Institute

I came to Harbhajan with devastating seizures and a history of emotional trauma. I tried a variety of different healing approaches, with minimal success. Harbhajan's profound mastery of the nervous system and subtle levels addressed deeply held patterns and brought healing and balance to my entire system. I am now about 95% free of seizures.

– Elizabeth

I went to Harbhajan to deal with my depression, sleep deprivation, and addictions. I am grateful for my spiritual reawakening. He also helped me to heal broken ribs, scar tissue in both kidneys, and neurological problems.

– Lucinda, college professor

Several car crashes made me a prime candidate for Harbhajan's excellent and diverse therapeutic techniques. The treatments went beyond the injury to personal and life issues.

A real bonus.

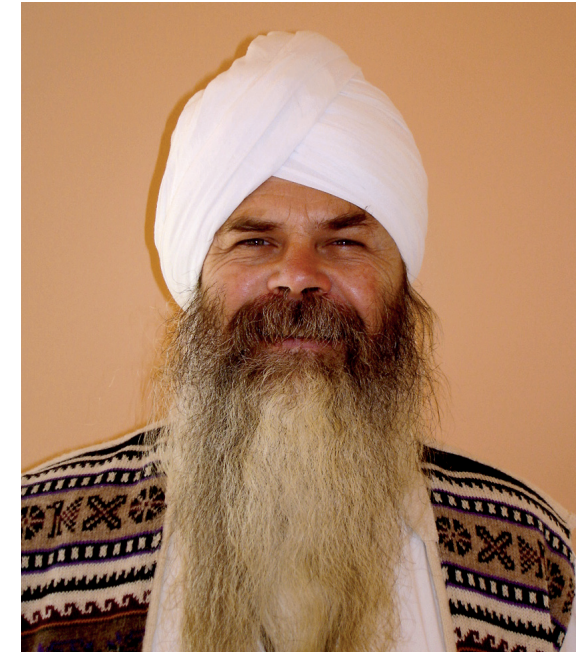

– Jeffrey Tucker, Business Consultant

Since your craniosacral treatments, I have written a series of children's books. The treatments released the 'writing' gene and words cannot express my gratitude.

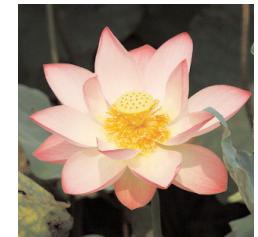

– Suzanne, now a well-known writer of children's books

## Harbhajan S. Khalsa

A gifted, clairvoyant healer & teacher

Specializing in releasing chronic physical pain and emotional trauma

TOGETHER, WE  
TURN YOU AROUND!

### MISSION STATEMENT:

My goal is to provide individuals and the community with the most modern and advanced therapies treating emotional, physical, and spiritual imbalances to facilitate health and transformational growth.
